DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Urcia, Benjamin E. on January 11, 2006.

2. The application has been amended as follows.

IN THE CLAIMS

Please cancel claims 7-8 and 16

Claim 1, line 14, after **"terminal"** please insert --, said first mode terminal further connects to the capacitor and the thin film transistor, and wherein the second mode terminal further connects to the output terminal of the first multiplexer--.

Claim 9, line 15, after **"terminal"** please insert --, said first mode terminal further connects to the capacitor and the thin film transistor, and wherein the second mode terminal further connects to the output terminal of the first multiplexer--.

Allowable Subject Matter

3. Claims 1, 3, 5-6, 9, 11 and 13-15 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1, 3, 5-6, 9, 11 and 13-15 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. **In claims 1 and 9, “wherein said second multiplexer further comprises: a selection terminal: an output terminal: a first mode terminal, and a second mode terminal said first mode terminal further connects to the capacitor and the thin film transistor, and wherein the second mode terminal further connects to the output terminal of the first multiplexer”** The closest prior art Nathan et al. (005/0007352 A1) teaches a multiplexer block includes a plurality of TFTs, and the multiplexer circuit block has an input terminal V-in, an output terminal V-out, control terminal A, B and C, and a terminal V1, however, singularly or in combination with other prior art, fail to anticipate or render the above underlined limitations obvious.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sato et al. (5,712,652) teach an LCD.
